# Baier Geba 1/F hot stamping press

## Price: 2000 EUR

Baier Geba 1/F hot stamping press
The device is in perfect condition, ready to work.
This is a machine from the popular goldsmith manufacturer Baier GMBH+Co, manufactured in Germany.

Description
The Baier Geba 1/F gilding machine is a press for gilding, embossing and cutting paper. A device useful in every advertising agency and digital printing house. Manually activated clamp, power supply only 230V. A strong gear ensures repeatability of work and very high pressure of the die on the material.
The machine has an enlarged worktop and a long working depth, adjustable pressing depth, and a heating plate with a thermostat. An additional advantage of the machine is the installed line maker allowing the installation of fonts.

Specification:
Heating temperature regulation
Manual heating plate pressing mechanism
Press pressure force: 6kN
Power consumption: 320 W
Power supply: 230 V
Machine weight: 70 kg
