

Bourg Binder BB3002 perfect binder

Price: 14250 EUR

Bourg Binder BB3002 perfect binder

The machine is in very good condition, ready to work.

Manufacturer's description:

Automated perfect binding machine. All parameters are measured automatically, so there is no need to enter data manually

Efficiency up to 650 cycles per hour

Gluing with Hot Melt glue

Control panel with 12-inch touch screen to control all functions

Production of all standard frame sizes and more (100 x 100 mm to 385 x 380 mm)

Thanks to tool-free configuration, cover creasing is accurate and automatic

13 lines of creasing up/down (using a strip) ensure the highest quality by avoiding surface damage and cover cracks. It also enables the production of fixtures from the so-called „wings” (the wings are not folded inside the luminaire automatically)

Integrated double cover pickup sensor

Possibility of gluing blocks - with or without a cover

The set includes documentation and waste extraction.
