

ErgoPack 712E Pallet Strapping Machine

Price: 8750 EUR

ErgoPack 712E Pallet Strapping Machine

A device for strapping loads with PP and PET straps

Manufactured in 2016

Very good condition

Model 712E with a heat sealer and a „tail” that passes through the pallet and feeds the strap to the operator without bending down.

Manufacturer’s description:

The ErgoPack 712 E is used to strap almost any type of load using PP (polypropylene) or PET (polyester) strap. The device is fully automatic (tensioning, sealing, and cutting the strap). It is characterized by high efficiency and ease of use, ensuring excellent results with minimal physical effort. The device is controlled from a control panel.

Includes documentation, a charger, and a tool kit.
