

Eurofold Touchline CF-375 automatic creasing and folding machine

Price: 8000 EUR

Eurofold Touchline CF-375 automatic creasing and folding machine

Purchased from a small digital printing house.

It is the most efficient creasing and folding system on the market, solid construction.

Production Switzerland.

Year of production 2015.

Vacuum feeding from the top, from a high stack.

Built-in compressor for feeding sheets.

Control from a touch color monitor.

Technical data:

Max sheet size: 375 x 660 mm

Min sheet size: 105 x 148 mm

Max speed (for A4 format): 6000 sheets/h

Material weight: 100-400 GSM

Max number of bigs on a sheet: 20

Distance from the next biga: 30 mm

Setting accuracy: 0.1 mm

Stack height: 180 mm

Power supply: 230 V

Weight: 196 kg

Device dimensions: 1.86 x 0.6 x 1.3 m

Manufacturer's description:

The Touchline series offers greater versatility and a higher level of automation than other products in its class. The Foldmaster Touchline CF-375 model is an integrated creasing and folding system that combines both operations in one process. It uses a unique solution that allows creasing without cracking the printed surface.

The Touchline CF-375 creasing device uses a creasing beam patented by Foldmaster Swing-Bar™, which prevents paper fibers from breaking. The folding section is equipped with a Foldmaster Pro-Knife™ folding knife. It provides excellent handling of the folding process, even when processing thick papers. The device can process up to 6,000 A4 sheets per hour. The Touchline CF-375 creasing and folding machine is equipped with 2 receiving trays. Creased and broken works are placed on the upper tray, only creasing works are placed on the lower tray.

Automatic creasing and folding process = faster order processing

Fast and simple programming = time saving

Vacuum removal of sheets, precise separation = properly finished work, without scratches

Detection of double picks using ultrasound = maintaining production continuity and eliminating incorrectly picked sheets

Up to 20 creases on a sheet = ability to perform various types of work
