

## Hang 114-20/4 Paper Drill

**Price: 4250 EUR**

Hang 114-20/4 Paper Drill

The device is in perfect condition, 100% functional.

The highest class of machines among drills.

This is the currently produced model.

The best equipped possible.

Smooth regulation of spindle speeds (controlled by the inverter) in the range of 260 - 1,800 rpm and gradual regulation of the table lifting speed.

Quick zeroing of drills

Quick drill mounting system

Waste is directed to an external container.

Controlled by an electric foot switch.

Standby function, saving electricity.

Automatic tensioning of drive belts.

Each of the heads has independent regulation, which allows the use of drills of different lengths.

Technical data:

number of drilling heads: 4

drill diameter: 3-10mm

stack height: 65mm

drill spacing min: 45mm / max260mm

table dimensions: 600x480mm

Power supply: 400V

Weight: 400kg
