

## HSM ProfiPack P425 Cardboard Shredder

**Price: 2500 EUR**

HSM ProfiPack P425 Cardboard Shredder

This machine produces filling material from cardboard waste.

Made in Germany.

In like-new condition, the machine is ready for production.

Description:

This high-performance filling material machine processes multiple layers of cardboard into padding mats or filling material, depending on your needs.

The cardboard is simultaneously scored and profiled, creating a flexible mat of the desired width.

The machine is equipped with casters for easy relocation. Advantages:

- Hardened cutting rollers made of solid steel
- Strong and efficient drive suitable for continuous operation
- Adjustable material feed speed
- Adjustable output material volume
- Infinitely variable working width adjustment with a scale allowing for cutting filler material to any size
- Intuitive operation via a durable control panel with LED messages
- Integrated turbo function prevents blockages
- Safe operation thanks to a safety switch
- Equipped with wheels with brakes
- Strong drive enabling cutting of 2-3 sheets of cardboard
- Weight: 175 kg
- Dimensions (H x L x W): 1040 x 570 x 770 mm
