

Kama Pro Fold 74 Folder Gluer

Price: 38750 EUR

Kama Pro Fold 74 Folder Gluer

The machine is in very good condition, recently inspected, regularly serviced, and maintained.

The KamaProFold 74 is a multifunctional, modular folder-gluer. It is used for automatic folding, gluing, and applying additives. Designed by the German manufacturer KAMA GmbH, the machine allows for the quick and profitable production of small and personalized print runs.

The device eliminates time-consuming manual labor in commercial and packaging printing houses.

It handles a wide range of products:

- Advertising materials: presentation folders, folded cards, ticket envelopes, calendars.
- Packaging: boxes, linear boxes, CD/DVD covers.
- Postal accessories: shipping envelopes, courier bags, zigzag folds.

The machine was manufactured in 2013.

Controlled by two touchscreen panels. HHS XMelt 3-nozzle glue system, manufactured in 2021.
