

Multigraf Eurofold 435 SA Automatic Folding Machine

Price: 6250 EUR

Multigraf Eurofold 435 SA Automatic Folding Machine for Pharmaceuticals
This is the latest product from the Swiss company Multigraf AG.

The machine is ready for production.

The machine has 4 cassettes electronically adjusted via a touchscreen panel, very quick settings, and high precision.

Pneumatic feeding and full sound insulation.

The machine is ideal for pharmaceuticals thanks to its low fold of approximately 20 mm.

Infinitely variable folding speed.

230V power supply.

Becker compressor.

Format: 35×55 cm

The counter/controller performs the following functions:

- setting a specific material batch
- setting the pause time between individual sheet batches
- displaying the total amount of material processed
- displaying the operating speed (quantity/hour)
- programming the vacuum duration
- programming the pulse duration for the distance between sheets. Paper weight processed - 40 - 240g/cm²

Productivity, A4 format/hour - up to 30,000
