

Nagel Citoborma 490 paper drill

Price: 5000 EUR

Nagel Citoborma 490 paper drill

This is the largest currently produced model of the Citoborma drill.

Perfect condition, ready for production.

The machine has 4 drilling heads.

Drilling waste is directed to the bin located at the back of the machine.

The machine can be operated using a foot pedal or two-handed operation via buttons.

Each head has a separate up/down adjustment, which allows you to use drills of different lengths.

The set includes spare drills, tools and an instruction manual.
