

Nagel Foldnak Compact Booklet Maker with Trimmer

Price: 5250 EUR

Nagel Foldnak Compact Booklet Maker with Trimmer

The machine is in working order and ready for production. Very good condition.

The machine stitches at two points and folds in half to create a finished booklet, while the final knife trims the front of the booklet.

Description:

- Regular stitching and optional loop stitching (standard staples, economical to operate)
- Adjustable heads
- Option to disable stitching or folding (allowing for sewing only, for example)
- Push-button or photocell triggering
- Copy counter
- Side and front alignment
- Staple indicator light
- SRA3 format
- 230V power supply

Supports non-standard formats.
