

Nagel Foldnak Compact booklet maker with trimmer

Price: 5250 EUR

Nagel Foldnak Compact booklet maker with trimmer

The machine is functional, ready for production. Very good condition.

The device stitches at two points and folds in half to create a finished booklet, and the final knife cuts off the front of the booklet.

Description:

- regular and optional eyelet sewing (standard staples, cheap to use)
- adjustable heads
- possibility to turn off sewing or folding (this allows, for example, sewing only)
- triggering from a button or a photocell
- counter of copies made
- lateral and frontal alignment
- indicator light indicating lack of staples
- SRA3 format
- 230V power supply

Supports non-standard formats.
