

## **Renz Autobind AB 500 Semi-automatic ring wire binding machine**

**Price: 16250 EUR**

Renz Autobind AB 500 Semi-automatic ring wire binding machine

The machine is in very good condition, ready to work.

An efficient semi-automatic machine for the production of calendars, notebooks and other products bound with metal spirals.

Fast service

Supports spiral diameters ranging from 3/16"-1 1/8"

Working width up to 500 mm

Crimping thickness approx. 23 mm

Efficiency up to 2000 cycles/h

The semi-automatic unwinds the spiral from the spool, counts the stitches, cuts the spiral to the specified number of stitches and transfers the spiral section to the crimping zone.

The operator places a calendar with previously made perforation on the table

The calendar is automatically transferred to the clamping zone when you press the pedal.

Power supply 230V + compressed air

Weight 212 kg
