

Semi-automatic spiral binding machine Renz Mobi 360

Price: 18000 EUR

Semi-automatic spiral binding machine Renz Mobi 360

The device is in perfect condition.

Semi-automatic device for crimping closed spirals by the German company RENZ:

- Device controlled by a touch screen
- The fastest change of settings for different work formats in this class of devices via an electronic panel, which is particularly important for small, frequently changing print runs
- Setting the spiral diameter using a knob
- Hanger feeder
- Quiet operation. The device does not require the use of a compressor.
- Working width 105-360mm
- Mobile devices, easy to move
- Does not require special operator training

230V power supply

Weight: 360kg
