

## **TWQ-720RD Automatic Hot Foil Stamping Machine**

**Price: 21000 EUR**

TWQ-720RD Automatic Hot Foil Stamping Machine

This machine is brand new.

Very fast setup.

Embossing and hot foil stamping capabilities, with two independent foil feeds.

Servomotor control for fast and precise operation.

Technical specifications:

Maximum sheet size: 720x600mm

Min. sheet size: 150x120mm

Material weight: 120-2000g/m<sup>2</sup>

Maximum throughput: 1200 sheets/h

Power consumption: 13kW + compressed air

Weight: 2000kg

Foil feed: 1-550mm

Operating temperature: 50-150°C

Power supply: 380V

Approximate machine dimensions: 270x160x220cm

Equipment:

- Control panel with touchscreen PLC
- Two independent foil feeds, controlled by stepper motors
- Sectional heating plate
- Built-in compressor
