

Watkiss SpineMaster spine creator

Price: 3750 EUR

Watkiss SpineMaster spine creator

The device is used to form the spine in brochures, creating a perfectly square spine that looks like a glued or hard cover.

An additional advantage is a flat product that does not open by itself.

The device is in good condition, ready for production.

Technical data:

Working width 350mm

Efficiency 1750 cycles/h

Material thickness 1-6.5mm, approx. 30 sheets

Power supply 230V

Weight approx. 100kg

The machine lays out ready-made brochures in a stack.

Automatic cycle, the machine detects the inserted material.
