

Wohlenberg 132 TS ASE paper cutting guillotine

Price: 35700 EUR

Wohlenberg 132 TS ASE paper cutting guillotine

The machine is in perfect condition, ready for production.

Year of production 2010.

Available immediately from stock.

Equipped with an ASE automatic cutting scraps removal system and automatic backstop correction from the machine desktop.

The guillotine can be used as a stand-alone unit or integrated with cutting systems. Program generation takes place in the menu and covers various cutting tasks, e.g. Single cutting, Programming, Multiple cutting, Pressure without cutting, Automatic actual value transfer.

Wohlenberg's premium cutting machines are manufactured in Solms, Germany.

Distinguishing features of Wohlenberg machines:

- Interactive user interface
- 18.4" touch screen
- MIS integration (optional)
- USB interface
- Ethernet interface
- Windows CE operating system
- CIP data module
- Positioning via electronic handwheel
- Optimized cutting cycle
- Programmable pressing pressure
- Automatic adjustment of the pressure to the cutting width
- Automated knife change from the front
- Quick replacement of knives
- New machine body cast in one piece = higher stability
- Maintenance-free electromagnetic clutch

Technical data:

Cutting length: 1320 mm

Maximum stack height: 165 mm

Input depth: 1325 mm

The smallest cut with the sheet metal under the pressure beam: 77 mm

The smallest cut without sheet metal under the pressure beam: 20 mm

Maximum saddle feed speed: 300 mm/s

Maximum mechanical efficiency of the knife: 44 cycles/min

Saddle guidance: above the work table

Main engine power: 4.5kW

Net weight: 3410 kg

The machine is equipped with a spare knife, columns, a pressing plate, documentation, tools and a conveyor belt.
