

Baier Geba 1/P Hot Stamping Press

Price: 2500 EUR

Baier Geba 1/P Hot Stamping Press

The machine is in perfect condition and ready to use.

This machine is from the popular hot stamping manufacturer Gebrüder Baier KG, manufactured in Germany.

A stand is included.

Description

The Baier Geba 1/P hot stamping press is an automatic press for hot stamping, embossing, and die-cutting paper and plastics. It's a useful device in any advertising agency or printing house. The automatic presser starts and operates on a 230V power supply with compressed air. A powerful presser with adjustable pressure ensures repeatability and very high pressure of the die against the material.

The machine features a worktop with a slide-out function, adjustable embossing depth, and a heating plate with a thermostat.

Specifications:

Heating temperature control

Heating plate pressure mechanism: automatic

Press force: 8 kN

Power consumption: 320 W

Plate size: 110 x 70 mm

Power supply: 230 V

Machine weight: 150 kg
