

DEM GP4520 APM angle welding machine with shrink tunnel

Price: 5000 EUR

DEM GP4520 APM angle welding machine with shrink tunnel
Production France.

The device is in very good condition, ready for production.

Used in virtually every industry: printing, cosmetics, confectionery, wherever we want to elegantly package the goods we sell.

Automatic operation, just put the goods into packaging and the machine will do the rest.

Machine parameters set from the desktop, i.e. welding time, material travel time, welding machine opening time, conveyor speed, etc.

Welder dimensions: 470 x 555 mm

Weight: 400kg

Power supply: 380V

Installed power 8kW

Productivity 900 pcs/h
