

ErgoPack 726X X-Pert Pallet Strapping Machine with Gate

Price: 11250 EUR

ErgoPack 726X X-Pert Pallet Strapping Machine with Gate

A device for strapping loads with PP and PET straps.

Manufactured in 2022.

Very good condition.

The 726X model features a heat sealer and a „tail” that passes through the pallet and feeds the strap to the operator without bending. Additionally, the machine is equipped with a module for tall pallets, known as a gate.

Manufacturer’s description:

The ErgoPack 726X is used to strap almost any type of load using PP (polypropylene) or PET (polyester) strap. The device is fully automatic (tensioning, sealing, and cutting the strap). It is characterized by high efficiency and ease of use, ensuring excellent results with minimal physical effort. The device is controlled from a control panel.
