

Hang 114-30/4 Paper Drill Machine

Price: 5750 EUR

Hang 114-30/4 Paper Drill Machine

The unit is in perfect condition and 100% functional.

A top-tier machine in the category of paper drills.

This is a currently manufactured model, featuring the most comprehensive equipment configuration available.

Equipped with two integrated frequency converters (inverters) for stepless spindle speed adjustment (260 - 1,800 rpm) and smooth table elevation.

Rapid drill zeroing/alignment system.

The drilling table is adjustable in all planes; the margin (backgauge) setting is controlled via dial indicators.

Waste material is directed into an external container.

Operated via an electric foot switch.

Energy-saving standby mode.

Automatic drive belt tensioning.

Each drilling head features independent adjustment, allowing for the use of drills of varying lengths.

Includes a cooling and lubrication system for the drills.

Technical specifications:

Number of drilling heads: 4

Drill diameter: 3-10 mm

Stack height: 65 mm

Drill spacing: min. 36 mm / max. 260 mm

Table dimensions: 600 x 480 mm

Power supply: 400 V

Weight: 400 kg

The machine comes with documentation, maintenance tools, and drill bits.
