

Hohner SP Plus Square Press

Price: 3800 EUR

Hohner SP Plus Square Press

The device is used to form the spine of brochures, creating a perfectly square spine that looks like a glued or hardcover.

An additional advantage is the flat, non-opening product.

The device is in perfect condition, 100% functional, like new!

Technical data:

Working width 350mm

Efficiency 1000-1300 cycles/h

Material thickness 1-6.5mm, approx. 30 sheets

Power supply 230V

Weight approx. 100 kg

Possibility of placing the material on a stacker or collecting it manually.

Automatic cycle, the machine detects the inserted material and automatically adjusts to the material thickness.
