

Hot foil embosing machine LIDOGRAF HFS-450

Price: 11000 EUR

Hot foil embosing machine LIDOGRAF HFS-450

The device is brand new, not used. Showroom version.

Description:

Hot foil embosing machine LIDOGRAF HFS-450.

Rigid welded steel construction, pneumatic piston with smooth pressure regulation and control automation guarantee high quality and repeatability of the work performed. The machine is equipped with automatic foil shift, which greatly reduces the time of a single gilding cycle, worktable, depth control, heated table grinded with accuracy of 0.01 mm, which greatly enhances the quality of the press with large matrices, touch panel and modern OMRON control.

Specification:

Working size 450 × 290 mm

Working table surface 450 × 550 mm

Adjustable heating temperature from display up to 300 ° C

Adjustable time from the display

Adjusting the gold foil move from the display

Pressure plate heating mechanism pneumatic

Working gap (piston lifting height) 88 mm

The height of the pile is 80 mm

Piston diameter 200 mm

Press force to 3T

Supply air pressure 0.8 - 1.2 MPa

Power consumption 3000 W

Power supply 230 V

Machine Dimensions 1170 mm (W) x 870 (D) x 1840 mm (H)

Machine weight 280 kg

Instruction manual.

The machine is additionally equipped with:

Letters set with holders

Frame for fixing engraved matrices

Cross table for easier positioning of material to matrice
