

Logitrans ELF1001/920 Mobile Paper Stack Lifter

Price: 3000 EUR

Logitrans ELF1001/920 Mobile Paper Stack Lifter

This device is in very good condition.

Purchased from a small printing company, it's practically unused.

Hydraulic drive, built-in battery, and charger.

Battery-powered.

The stack lifting and lowering cycle is controlled from a mobile console that can be attached magnetically to the workstation or via the control on the device's drawbar, ensuring fast operation.

Load capacity: 1000 kg.

Made in Denmark.

Pallet/sheet dimensions: 785 x 1150 mm

Lifting height: 920 mm.

The device can be used as a stack lifter for a machine or as a standard high-lift pallet truck.
