

Nagel Foldnak 8 booklet maker + Nagel Trimmer

Price: 4250 EUR

Nagel Foldnak 8 booklet maker + Nagel Trimmer

The machine is operational, ready for production.

The device stitches in two points and folds in half to create a finished booklet, and the final knife cuts the front of the booklet.

Description:

- regular and optional eyelet sewing (standard staples, cheap to use)
- adjustable heads
- ability to turn off stitching or folding (this allows, for example, stitching only)
- triggering from a button or photocell
- counter of copies made
- lateral equation
- light indicating the lack of staples
- SRA3 format
- 230V power supply

Supports unusual formats.

Nagel Trimmer head knife
