

Paper cutting guillotine Ideal 4305

Price: 1000 EUR

Paper cutting guillotine Ideal 4305

Ideal 4305 is a basic guillotine for cutting paper in A3 format. It is ideally suited as cutting equipment in small printing, digital printing points, photographic studios, offices, etc. Full manual operation makes the device reliable and easy to use. Low purchase and operating costs make this device ideal for companies with low-volume production.

The guillotine has a lever sheet pressure, cutting length adjustment with reading on the strip and manual knife drive. It allows you to cut, for example, a stack of 500 sheets of paper (70 g / m) or a 40 mm thick brochure. Additional advantages include easy replacement of the knife and backing strips (strips). The device also has a safety cover and an effective lock against accidental use.

Specification:

- solid metal construction
- manual knife beam drive
- lever paper pressure
- transparent safety cover on the cutting field
- SCS system (Safe Cutting System)
- manual saddle feed
- reading the cutting position on the strip
- high-quality hardened steel knife
- safe knife replacement kit
- machine equipped with a base

Technical data:

Cutting length 430 mm

Infeed height 40 mm

Infeed depth 435 mm

Front table depth 230 mm

End cutting 34 mm

Weight 54 kg

Dimensions (width x depth x height) 880 x 880 x 1090 mm (with base)
