

Renz Autobind AB 500 HS + KAS-300 Semi-Automatic Spiral Binding Machine

Price: 20000 EUR

Renz Autobind AB 500 HS + KAS-300 Semi-Automatic Spiral Binding Machine

Machine in very good condition, ready to operate. Made in Germany.

Efficient semi-automatic machine for the production of calendars, notebooks, and other metal spiral-bound products.

Fast operation

Spiral diameters range from 3/16" to 1 1/8"

Working width up to 500 mm

Crimping thickness approx. 23 mm

Cycle capacity up to 2000 cycles/hour

The semi-automatic machine unwinds the spiral from the spool, counts the stitches, cuts the spiral to the pre-set stitch count, and transfers the spiral section to the crimping area.

The operator places the pre-perforated calendar on the table. The calendar is automatically transferred to the crimping area by pressing the pedal. The machine then automatically deposits the entire binding onto the outfeed conveyor. The machine includes a Renz KAS-300 hanger feeder, a CB-120HS outfeed conveyor, tools, and documentation. Power supply: 230V + compressed air. Weight: 250kg.
