

Renz Autopunch AP 360 V4 Automatic Perforator

Price: 17500 EUR

Renz Autopunch AP 360 V4 Automatic Perforator

This machine is in very good condition.

It comes from a government institution.

Includes a 4x4mm perforation tool with a cutout for the hanger. This two-module tool is designed for continuous operation and heavy loads.

The unique „Two-finger“ system ensures perfect reception of sheets of varying weights. After perforation, the sheets rotate around a special drum, maintaining the correct page sequence at the receiving station.

Two-piece perforation strips can be used, allowing for the perforation of both books and calendars.

Perforation up to 2.4mm in a single cycle.

Quick and easy replacement of perforation strips.

Perforation strips can be used with or without a cutout for the hanger. Quick format change by switching off selected needles without having to remove the bar.

230V power supply

Weight 720kg

Made in Germany.
