

Semi-automatic spiral binding machine Renz Autobind 700 III

Price: 13750 EUR

Semi-automatic spiral binding machine Renz Autobind 700 III

Machine in very good condition, ready to work.

Efficient semi-automatic for the production of calendars, notebooks and other products bound in metal spirals.

Fast operation

Supports spiral diameters in the range of 3/16" - 1 1/8"

Working width up to 700 mm

Crimping thickness approx. 23 mm

Efficiency up to 1200 cycles/h

The semi-automatic unwinds the spiral from the spool, counts the stitches, cuts the spiral to the specified number of stitches and transfers the spiral section to the crimping zone.

The operator places a calendar with previously made perforation on the table

The calendar is automatically transferred to the crimping zone after pressing the pedal.

Power supply 230V + compressed air

Weight 615 kg + cabinet with tools 300 kg.
