

## **Tecnomac Sprinter 76 Automatic laminating machine**

**Price: 24000 EUR**

Tecnomac Sprinter 76 Automatic laminating machine

The most efficient machine on the market from a legendary manufacturer.

It is an advanced machine with high efficiency thanks to an external heating thermostat.

Production Italy.

Technical data:

Max sheet size: 760mm x 1040mm

Min sheet size: 210mm x 210mm

Min weight: 120 gsm

Max grammage: 400gsm

Operating temperature: 80-145°C

Max working speed: 40m/min

Weight: approx. 1800 kg

Power supply 380V

Additionally, air 8 Bar

A steel, chrome-plated cylinder with a large diameter, filled with water for greater operational stability.

Pneumatic pressure, separation and automatic feeding.

Adjustable pressing force.

Feeding from a high stack, Spiess type feeding head

Expanding roller for attaching the foil.

Sheet straightening module.
